You're Invited

LGF Museum of Natural History is having an Open House and Fundraiser. You are invited to tour the founders private collection of artifacts, minerals, petrified wood, dinosaurs and more.

Browse or join a tour at quarter past the hour from 12pm to 4pm. Larry, the Stygimoloch Spinifer, is a rare dinosaur skull and part of what you'll see.

There is no charge to attend the Open House. We are looking for financial donations as well as social support from you in spreading the word about the mission to build a world-class natural history museum in Arizona.
